

Year 2 have thoroughly enjoyed themselves this week during space week. We read the story 'How to catch a star' by Oliver Jeffers and linked most of our activities around the theme of space and stars. We made rockets to fly into space and measured their flying distances, investigated light sources using circuits, created 'starry night' scenes in art in the style of Van Gogh and designed models of star catching ideas such as hot air balloons and catapults.

To Year 2 Last night, a baby star fell from the sky to Earth. When a star is made gases mix bogether and it gets Very hat? But unfortunately this did not happen and the star fell from the Solar System. Your job is to take care of the baby Your job is to take care of the baby Star until it is this enough to be sern star to the the star, take about how beek more it and keep it in a to corpace, the to you again soon. I wan eat the stordust of I wan eat the stordust of
