

Space WOW Day

Year 1 had a super day jumping into their first topic all about Space.

We started the day by watching some videos about Space and discussing what he already knew and what we wanted to find out.

The day was full of different activities! We coloured in pictures of all the planets, we baked and decorated rocket and astronaut biscuits, we watched videos of star constellations and made our own and finally we built our own craft rockets with our partners. It was a great day and we can't wait to learn more about Space!
