What is currently working well in school?	Forrest school sessions are enjoyed by pupils, thanks passed on to Mrs Howell Children have had a settled start to the new school year Y3 cohort back together having been in mixed age classes Swimming is going well in Y5 Access to calm club has supported pupils well Mindfulness after school club is well received	Thanks to be passed to staff
How is communication between home and school	Dojo continues to work well and the newsletter is well received	
What could be improved?	Parents noted that children are using wooden forks during some lunches – metal forks are being purchased and the school know this needs addressing. Questions were asked about how the playground is being zoned at lunches with play equipment. Parents asked if there had been a change in food since September as their children were not enjoying it as much as they had done previously. After school clubs were asked about – school explained that they are working with local providers to enhance this offer, being mindful that any clubs run by staff are done so voluntarily.	Forks to be purchased – in hand School to feedback to Edwards and Ward On-going work with local providers
